This is 2 different version. Version 1, that I use is pages 1 and 2 printed front and back. Version 2 is pages 1 and 3. Page 2 has a list of prizes the students can “cash-in” their accumulated stickers to receive. The prices are small printed, laminated, and cut pictures. They’re time consuming to make, but the kids love them and once you have a large stock its fast to replenish.

This is a current 2019 version of the sticker sheet. However, I recommend you customize it yourself as some of the images used will become dated. Also hiding a picture of yourself somewhere in the sheet is fun for the kids.
